

# Future in Focus

Seeing early. Backing early. Winning early

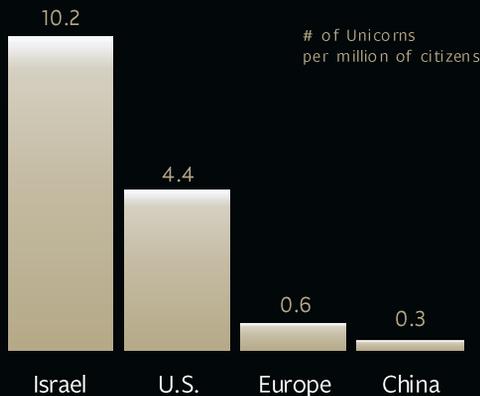

We invest primarily in Israeli early stage B2B  
Cybersecurity, Cloud computing, and AI infrastructure

With over a decade of having skin in the game and boots on the Israeli ground, we've built a vast network on mutual trust and repeated success. Our narrow focus and hand-on tech expertise allow us to pick and back visionary teams from day zero – before anyone else.

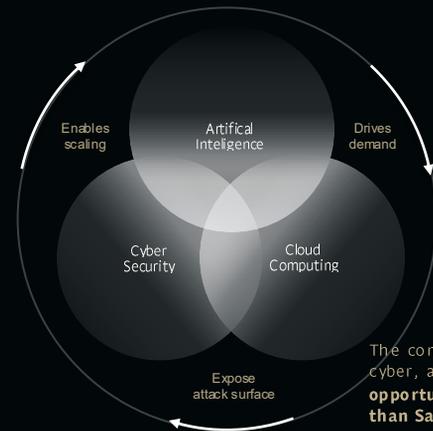

## What Makes us Unique

- 1 Named in top 3 most active foreign VCs in Israel in 2024.
- 2 Access to 800+ cyber/AI/cloud startups in Israel, and ex-tech founders.
- 3 Deep market understanding helps us anticipate trends and technological shifts.
